All,

The OPP are assisting Windsor and Sarnia borders respectfully the best we can. I will provide updates as I get them from my team on ground for your situational awareness. Tomorrow morning we will stand up or Command Post in London. We will have direct comms with them, if you get any information that is urgent please email or call me and I will ensure it gets to the critical incident commander.

These messages are not filtered and are for you to digest to your internal commanders please do not cut and paste these messages, intelligence contained within is for situational awareness and are quick snapshots of findings on the ground.

BWB

1800 hours:

Traffic for westbound hwy 402 is backed up in both lanes from the Bluewater Bridge for approximately 12kms. Inbound traffic from the USA on the Bluewater Bridge is also backed up on the bridge. No protesters in the area. The backup of traffic is likely due to the re directed traffic from the Ambassador Bridge.
